

6.1 Treat all employees equally regardless of gender / race / age / sexual preference.

Adhere to laws and regulations that promote an inclusive workforce.

Respect and promote individual cultures in the workplace

6.2. 1 **Bootlegging:** is illegally manufacturing fake goods for sale Example: Fake Nike

sneakers manufactured in China. Businesses could lose out as customers will go to the competitor that charges cheaper prices.

6.2.2 **Striking:** A strike is usually the result of a dispute in the workplace. A strike occurs

when employees refuse to work. Strikes can lead to production losses and decreases in sales. Businesses may be forced to close operations after a strike

6.3 Solutions to piracy businesses can use are trademark, copyright and patent.

- Copyright is the right given to the creator of an original work so that it cannot be copied without his / her permission
- A patent is an exclusive right for a specific product or discovery for period of time.
- A trademark is usually a word, picture or logo that indicates a specific brand, individual or business.

6.4.1 Socio-economic issues are social and economic factors in the macro environment that can cause problems in the business.

“John works for a syndicate that sells pirate copies of DVD’S” AND John does not know that he is working for a crime syndicate that uses the money to buy drugs.

6.5.1 A business can be easily influenced by pyramid schemes and money laundering.

Pyramid schemes:

A business that promises very high returns to people who invest their money. People are investing more and more, but in fact only the individuals at the top of the pyramid make money.

Money Laundering: Illegal profits from crimes are invested in legitimate businesses to cover up their illegality
